

# P.I.E: Partners for Inclusive Education

## CORE VALUES

1. Every person is valuable and contributes to making an inclusive community.
2. Collaboration is fundamental, as this is a partnership in which school admin, staff, parents and members of the community work together to increase knowledge and find solutions to challenges presented.
3. We consider open, sensitive, and direct communication to be essential.
4. We approach challenges from a place of curiosity and respect with the intent of understanding all viewpoints involved in a situation.
5. We facilitate engagement in

the process of acquiring new knowledge and promoting acceptance and inclusion.

## Please Join us at our next meeting-RSVP is required

Contact Facilitator: Mandy Young
