4. Vote – Spending of Community Gaming Grant Funds
 - On an annual basis the Montroyal PAC applies for a PAC Community Gaming Grant.
 - PAC grant funding is intended to benefit all students by enhancing the extracurricular opportunities of students who attend the school(s) represented by the PAC.
 - PACs should use their best judgement to determine how to spend grant funding that aligns with the spirit and intent of the program and the Guidelines (see attached).
 - Currently the Montroyal PAC has \$15,000 in gaming grants that needs to be spent as one of the criteria is that the funds need to be spent within a certain timeframe.
 - As COVID has interrupted much of the schools and PAC activities over the last 2 years the funds have not been allocated as they typically would be therefore, to avoid losing the funds the PAC is proposing to allocate spending the funds as follows:
 - Up to \$5,000 for indigenous art from a local artist to be displayed in the school
 - Up to \$5,000 for the development of an outdoor learning area
 - Up to \$5,000 for outdoor improvements (e.g., gardens, planters to be installed by the kids, etc.)
